

Licence Number	L8667/2012/1
Licence Holder	Cliffs Asia Pacific Iron Ore Pty Ltd
ACN	001 892 995
Registered business address	Level 11 1 William Street PERTH WA 6000
Date of amendment	5 January 2017
Prescribed Premises	6 – mine dewatering; 12 – crushing and screening etc; 54 – sewage facility; 64 – class II or III putrescible landfill.
Premises	Windarling Range Mine Operations Part Mining Lease M77/1001, M77/999, M77/1038, M77/1039, and M77/1000 as depicted in Schedule 1. MOUNT JACKSON, 6426

Amendment

The Chief Executive Officer (CEO) of the Department of Environment Regulation (DER) has amended the above licence in accordance with section 59 of the *Environmental Protection Act 1986* as set out in this Amendment Notice.

Date signed: 06 January 2017

Tim Gentle

Manager Licensing – Resources Industries

an officer delegated under section 20 of the Environmental Protection Act 1986 (WA)

Amendment Notice

This notice is issued under section 59 of the *Environmental Protection Act 1986* (EP Act) to amend the licence issued under the EP Act for a prescribed premises. This notice is given under section 59B(9) of the EP Act.

Amendment Description

Cliffs Asia Pacific Iron Ltd (Cliffs) operates the Windarling Iron Ore Mine which is subject to conditions under both Part IV and Part V of the EP Act.

On 29 September 2016 the Environmental Protection Authority issued approval under section 45C of the EP Act for development of an additional mine pit, W10.

Licence L8667/2012/1 currently authorises dewatering from open pits W1, W3 and W7 to W2 pit. This notice authorises installation and operation of additional infrastructure to allow dewatering from the new W10 pit to W2 pit. The location of W10 pit is indicated in the existing map in Schedule 2 of Licence L8667/2012/1. The coordinates delineating the permitted surface footprints for all mine pits, including W10, are included in the Part IV approval.

The Delegated Officer has assessed that the proposed additional dewatering will not change the risk profile of emissions and discharges. Therefore the licence conditions have not been changed other than an amendment to Table 2.2.1 to authorise W10 pit as an additional dewatering source for discharge to W2.

Amendment History

Instrument	Issued	Amendment
L8667/2012/1	29/11/2012	New application
L8667/2012/1	03/01/2012	Licence amendment for operation of new crushing and screening
L8667/2012/1	15/01/2013	Licence amendment to allow dewatering operations
L8667/2012/1	21/05/2015	Licence amendment to allow tyre burial
L8667/2012/1	28/01/2016	Licence amendment to expand dewatering (from W7 pit to W2 pit) and landfilling operations
L8667/2012/1	5/01/2017	Amendment Notice to allow dewatering from W10 pit to W2 pit

Amendment

1. Table 2.2.1 is amended by the insertion of the red text shown below:

Table 2.2.1: Emission points to groundwater		
Emission point reference	Description	Source
W2	Mine dewater	W1, W3, W7 <i>and</i> W10 pits.
W4	Mine dewater	W1 and W3 pits.
