1. Decision summary

The Delegated Officer has determined to make amendments to Licence L6161/1988. The amendments are administrative in nature therefore they do not alter the risk profile of the premises, if activities, emissions and receptors as stated in existing approvals remain unchanged. This amendment report documents the amendments made pursuant to section 59 and 59(B) of the *Environmental Protection Act 1986* (EP Act).

The decision report for the existing licence will remain on the department’s website for future reference and will act as a record of the department’s decision making.

2. Scope of assessment

2.1 Regulatory framework

In amending the licence, the department has considered and given due regard to its Regulatory Framework and relevant policy documents which are available at <https://dwer.wa.gov.au/regulatory-documents>.

2.2 Amendment summary

Licence L6161/1988/13 is held by Iluka Resources Limited (Licence Holder) for the Yoganup Extended Mineral Sands Mine (the Premises), located at Hyder Road, The Plains, WA. The Premises relates to the category and the assessed production capacity under Schedule 1 of the Environmental Protection Regulations 1987 (EP Regulations) which are defined in existing Licence L6161/1988/13.

Tasca Holdings Pty Ltd (Gundagai Dairy) submitted an application to the department on 11 June 2021 for screening operations (category 70) on part of lot 4988 on Deposited Plan 171968. Following validation of the application, DWER identified proposed activities crossed into the area prescribed under licence L6161/1988/13, held by Iluka. DWER contacted Iluka regarding boundary modification on 13 August 2021 and Iluka agreed to excise a portion of the lot from the prescribed premises on 19 August 2021 (DWER reference: A2041738). The department consequently initiated an amendment to Licence L6161/1988/13 on 1 September 2021. The amendment is limited to modifying the prescribed premises boundary to remove part of lot 4988 on Deposited Plan 171968 (Volume 1551 Folio 568) as shown Figures 1 and 2 below.

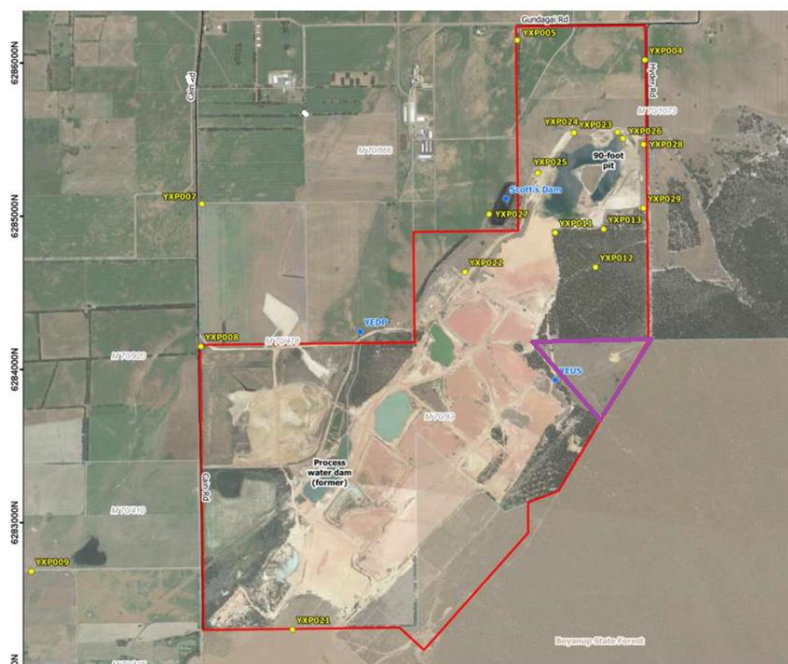

Figure 1 L6161/1988/13 Prescribed premises (red) and area for removal (purple)

Figure 2 Zoomed extent of area for removal shown with coordinates

3. Consultation

The Licence Holder was provided with the draft Amendment Report on 7 September 2021. On 8 September 2021 the Licence Holder waived the comment period.

4. Conclusion

Based on the assessment in this Amendment Report, the Delegated Officer has determined that an amended licence will be granted, subject to conditions commensurate with the determined controls and necessary for administration and reporting requirements.

4.1 Summary of amendments

Table 1 below provides a summary of the proposed amendments and will act as a record of implemented changes. All proposed changes have been incorporated into the revised licence as part of the amendment process.

Table 1: Summary of licence amendments

Condition no.	Proposed amendments
Cover page	Premises details modified to reflect update to boundary: text modified to state "Part of Lot 4988 on Plan 171968"
Schedule 1: Premises map and monitoring locations	Prescribed premises boundary updated
